Learn more about these metrics
Article Views are the
COUNTER-compliant sum of full
text article downloads since
November 2008 (both PDF and
HTML) across all institutions and
individuals. These metrics are
regularly updated to reflect usage
leading up to the last few days.
The Altmetric Attention Score is
a quantitative measure of the
attention that a research article
has received online. Wed, 21 Mar

Rennet / Ę r Ę n Ę t / is a
complex of enzymes produced in
the stomachs of ruminant
mammals. Chymosin, its key
component, is a protease enzyme
that curdles the casein in
milk. This helps young mammals
digest their mothers' milk. Rennet
can also be used to separate milk
into solid curds for cheesemaking
and liquid whey. In addition to
chymosin, rennet contains other
important enzymes such as ...
