frontiers in polar biology pdf -  
The polar bear (*Ursus maritimus*)  
is a carnivorous bear whose  
native range lies largely within  
the Arctic Circle, encompassing  
the Arctic Ocean, its surrounding  
seas and surrounding land  
masses. It is a large bear,  
approximately the same size as  
the omnivorous Kodiak bear  
(*Ursus arctos middendorffi*). A  
boar (adult male) weighs around  
350â€“700 kg (772â€“1,543 lb),  
while a sow (adult female) is ...

Home - Springer - The Arctic fox  
(*Vulpes lagopus*), also known as  
the white fox, polar fox, or snow  
fox, is a small fox native to the  
Arctic regions of the Northern  
Hemisphere and common  
throughout the Arctic tundra  
biome. It is well adapted to living  
in cold environments, and is best  
known for its thick, warm fur that  
is also used as camouflage. On  
average, Arctic foxes only live  
3â€“4 years in the wild. Thu, 15

Arctic fox - Wikipedia - The PolarGel  
range is designed for use with  
polar organic solvents and  
water-organic mixtures. These  
eluent are very useful in GPC /  
SEC to separate polar materials,  
such as resins, starches,  
biopolymers, polysaccharides,  
polyamides, and other polar

polymers that are prone to  
interaction in purely organic or  
aqueous solvents. Thu, 08 Feb
