Description : Industrial
archaeology is the study of early
industrial buildings and
machinery, particularly of the
eighteenth and nineteenth
centuries. When this book was
originally published in 1963, this
was becoming a topic of lively
interest and controversy among
archaeologists, historians,
architects and engineers. Tue, 20

Industrial archaeology (IA) is the
systematic study of material
evidence associated with the
industrial past. This evidence,

collectively referred to as
industrial heritage, includes
buildings, machinery, artifacts,
sites, infrastructure, documents
and other items associated with
the production, manufacture,
extraction, transport or
construction of a product or range
of products. Wed, 07 Mar 2018
